

MAY BE A RUSE

Strategists See a Purpose in the Russian Withdrawal

CLASH OF ARMIES EXPECTED

Russian Scoutboats Yesterday Sighted Togo's Fleet Near Port Arthur and an Attack on the City is Likely at Any Time

Japan Wants Canadians

Montreal, April 8.—Japan wants Canadian South African veterans. A secret service agency has been authorized here by the Japanese government to offer positions to Canadians in the Japanese armed corps.

Those who have served in South Africa are eligible.

Kuropatkin Inspects New Chwang

London, April 8.—The Times has the following cable from Paris:—"A telegram from New Chwang says General Kuropatkin yesterday visited the city on a tour of inspection."

"Since his arrival at the front the activity here has increased, and the preparations against attack have been pushed forward vigorously."

"The General made an inspection of the estuary of the river, where formidable fortifications have been constructed, and which are now being rushed to completion. There is an immense quantity of artillery here."

"Everything points to the conclusion that the long anxiety of the Japanese has dispelled the favorable prospects they were believed to have in February, when the Russians were under the effects of the first surprises."

Sighted the Enemy

Port Arthur, April 8.—Since the last attack on the city, Admiral Makarov has had swift despatch boats scouting the adjacent waters every day, frequently accompanied by the 28 knot cruiser Nevis, the fastest cruiser in the world.

Today the torpedo boat destroyers Strashni and Vlastny entered the harbor and reported having sighted Admiral Togo's fleet, 15 miles south-east of the Liao Tung peninsula. This is the first time in eight days that the scouting boats have sighted the enemy.

It is now expected that another attack will be made on the city tomorrow, and every preparation has been made to meet it.

Battle at Sea Reported

Paris, April 9.—The St. Petersburg correspondent of the Echo de Paris says that Vice-Admiral Makarov went out from Port Arthur this morning, a Japanese squadron having been signalled in the offing.

It is rumored, the correspondent says, that a sea fight took place, but nothing concerning it is officially known.

Expect Movement on Vladivostok.

London, April 8.—The Morning Telegram's correspondent at Tokio corroborates the statement that a collision between Russians and Chinese in the neighborhood of the Liao river is reported imminent. A Standard correspondent at Shanghai says that there are reasons for expecting that the Japs will make a movement against Vladivostok about April 24th, when the opening of navigation will probably take place.

Trying to Draw the Japs

New York, April 8.—All despatches from the far east indicate the near approach of a decisive battle. Experts believe that the withdrawal of the Russians to strongholds on the right bank of the Yalu means an attempt on the part of the Russian strategists to draw the enemy into a trap as so far the Japanese have shown a desire to occupy all the points from which the Russians have withdrawn, being now masters of the entire bank of the river.

Newspaper correspondents have again been halted, this time there being an objection to some landing at Chemulpo, while one who desired to proceed from there was debarred from embarking on a steamer calling at that point.

TOOK CARBOLIC ACID

J. J. Hennager Found This Afternoon Suffering From Carbolic Acid Poisoning, and Died in an Hour

J. J. Hennager, who for some time has had a gunsmith and lock fitting shop in the rear of the Great West Bank Company's block, was found shortly before two o'clock this afternoon in a dying condition, apparently in a dying condition, apparently in a dying condition. The appearance indicated that he had taken a large dose of carbolic acid. Chief of Police Dean was at once notified and called Doctors Brantley and Hyslop, who immediately wrote every expedient to offset the effects of the poison and restore the patient.

Mr. W. P. McDonald, who has been rooming with Mr. Hennager in the apartment in the rear of the shop, seen by a Bulletin representative, could assign no reason for the apparent attempt at self destruction.

RAILWAYS TIED UP

BY TERRIBLE SNOW-STORM

The Dakotas and Minnesota Swept By the Worst Storm in Twenty Years.

(Bulletin Special Dispatch). St. Paul, April 9.—North Dakota, South Dakota, and Northern Minnesota are storm bound. Not a railroad train was moving west of St. Paul last night. All trains on the Great Northern are lost. The telegraph lines are down and officials cannot locate them. During the last thirty-six hours eighteen inches of snow, driven by a high wind, has fallen in Dakota.

Last night the storm reached St. Paul and a general tie-up of railroads has resulted. In North Dakota the storm in the most severe for twenty years, and it is believed the loss of live stock will be heavy. On none of the western roads were trains sent out tonight.

On the Crow Wing and Red river nine bridges were washed away yesterday afternoon.

STARTLING SEQUEL

TO MAIL ROBBERY TRIAL

J. A. Bangs a Prominent Calgary Lawyer Arrested as Accomplice

(Bulletin Special Dispatch).

Calgary, April 9.—There was a sensational sequel to the Wilcox mail robbery case here yesterday, when on the instructions of Dominion Police-Master Chamberlain, John Arthur Bangs, a prominent lawyer of this city and a member of the firm of Bangs & Jones, was placed under arrest on a charge of being an accomplice.

He was released on \$10,000 bail. He was solicitor to Wilcox.

B. F. Boyce of Gleichen, at one time hotel keeper at Wetaskiwin, and T. B. Ham were also arrested.

The trial takes place on Monday.

A COMPARISON.

Under the heading, "Heavy Increase in Taxation," the Winnipeg Telegram has an editorial bewailing the fact that the public accounts of Canada show under the heading, "receipts from taxes, \$28,000,000.00 in 1897, and \$49,000,000.00 in 1902. It wants the voters to rise in their might and smite the Liberal Government which has made such an immense increase in the taxation of the people. The Telegram forgets to state that under the system of taxes raised by customs duties, taxation is in proportion to business done, and that the increased amount of money paid by the people in 1902 over that paid in 1897 means that the people are doing that much more business in 1902 than they were in 1897.

But there is something besides. It is a fact that the taxes have been increased from \$28,000,000.00 to \$49,000,000.00 under the Liberal Government, that is the strongest reason that could be given why the Conservative party should not attain power, for if that party had remained in power, with its then or present policy of taxation, either the trade of the country would not have been increased, or under their higher tariff, a great many more millions would have been taken from the pockets of the people. The public can easily make their choice between increased trade, increased revenue, with a lower rate of taxation, which is the Liberal policy and record; and decreased trade, decreased revenue, with a higher rate of taxation, which is the Conservative policy and record.

NEWS OF THE NORTH

Mr. D. Harold reached Edmonton on Thursday from Moose river, where he had gone in company with Wallace's survey party on their way to the Peace river country, where they will be engaged for about a year on government survey work, with headquarters at Duvigneau.

Two other parties will go out for the government to the Peace river country during the spring, in charge of Messrs. Selby and St. Cyr. A Grand Trunk party, started about the middle of March and were making very good time, though delayed at Athabasca Landing waiting for hay.

Mr. Wallace's party consists of thirteen men and left Edmonton on March 21st. The party includes Messrs. Duplessis, Flynn, Bisset and Faggart of Edmonton. They had four teams with sleighs and eight pack horses.

On the trip out hay was almost an unknown quantity at Athabasca. Landing and horses were expensive creatures to have. A half ton of hauled hay was secured a few miles this side the Landing at the modest figure of forty dollars per ton. Since that time, however, several loads arrived from Morinville and St. Emile and the price has reached a more normal level.

There are several teamsters yet in the north who are expected out at an early date, among them being C. Kallimer, R. Bell, T. Tingley and T. Clarke.

The machinery for the Hudson's Bay Company's steamer Messenger was taken through successfully to the Peace river crossing, but the steamer remains at the Landing, where it has been laid up and apparently will be left until next winter, the deep snow of the present season making it very difficult handling the boat on the banks.

The sleighing was very poor on the return journey, the snow having almost disappeared near the Landing. The best sleighing on the return trip was found between the Sturgeon and Edmonton.

CONJURING CREEK

(Bulletin Correspondence).

Conjuring Creek is still pushing to the front and it seems wonderful to settlers coming from the old country or old settled places, to see how this new and wonderful country can settle up so rapidly. To look at this district now which was almost unknown six years ago, does really open one's eyes. There only one or two settlers were scattered around; now it is a well settled place with three post offices, five schools, two stores, two blacksmiths' shops, one real estate agent, one photographer, The Methodist, Baptist, Church of England and Presbyterian denominations have services every Sunday. We also have two doctors. We, as settlers here feel proud, and well we might, that we came to such a fine district. Coal has been found in several places with deep seams. Of course the Creek district covers several miles. Schools are from three to four miles apart, post offices five to six miles, and the settlement is still pushing west. One survey party passed through two weeks ago to survey twelve miles west of here, and as soon as a post office or school is needed one is granted them. A large rush of settlers is expected this spring, but most of these seeking homesteads will go a little farther west, where land is being rapidly surveyed.

Conjuring Creek school, which has recently been moved to a more suitable site, reopens on Monday next week with Mrs. Baker of this place as teacher. Humble public school closed on Thursday last for a short time, and the teacher left on Saturday's train on a short visit to her home near Calgary.

At the close of the morning's service at the church of England, the daughter of Mr. and Mrs. Sidney Price was christened by the Rev. Mr. Floyd.

Mr. Frank Clifford is now handling farm property in connection with his insurance and loan business.

Mr. Sangster, who has carried the mail for four years, will continue to carry it until a new contract is made, the old one having expired on the last inst.

REGARDING DRY LOGS

(Correspondence).

Mr. Editor:—I have, at different times, given you the opportunity to attest the fact that when I meddle with public affairs my sole and only object in doing so is to do good; and the empty pride of one aiming at sensation is always—in such cases—far, far away from me. In order to leave you under this desired impression, I beg to assert that if I venture to speak my mind on a subject of no particular interest to me, and that, in a language which, though, inflamed with its love, I am not familiar with; it is because I am beseechingly asked to do so and because I am sincerely wishing to bring the matter of dry logs before the government in its proper light.

I will in the first place mention that, swept away by a flow of eventual circumstances, I have lived in this Canadian Northwest since the year 1870, and that there are few, very few fragments of this country with which I am not more or less acquainted.

With regard to the dry logs in question on which account much acrimonious comment is indulged in by agricultural circles here, I have, of late, by course of fortuitous events, made a special investigation of the matter; and with reference to the question I am to say with a complete disinterestedness, having no other object in view but the elucidation of the government on the subject, that the dry logs aforesaid are an absolute and irremediable loss to the government.

That dead and fallen timber has been dead and fallen timber for years past, and it is, owing to its permanent exposure to the weather, a prey to the deleterious and inevitable action of a rapid and ceaseless deterioration. A more eminent and threatening danger of its complete destruction, still in the prairie fire, which is liable to kindle at any time during the summer and reduce it all to ashes.

In the event of this being the case, such as is now asserted, would I be permitted as a matter of course, to ask the question if it would not be more satisfactory to the government to see the farmers draw whatever benefit they could of those logs now than to see them go to waste altogether? It would, undoubtedly, and the government, under the circumstances, would be justifiable in giving the farmers all possible inducements to save the wasting property instead of taking in the matter any coercive measure which would, in the estimation of one and all, be an act contrary to their dignity.

Thanking you, Mr. Editor, for your courteous and affable acquiescence, I remain with high consideration, yours respectfully,

LOUIS LEPAGE.

BIRCH LAKE

(Bulletin Correspondence).

After the long, hard winter we are pleased to see spring's magic wand again stripping the prairie of its white mantle.

Messrs. Gilpin Bros. have their store in full swing. The boys report business good.

On Thursday morning the only child of Mr. and Mrs. J. Lucy was drowned by falling in a well. Mr. and Mrs. Lucy have the sympathy of all in their sad bereavement.

Notices are out calling for tenders for carrying the mail from Dinwiddie to our proposed new office at Gilpin.

Empey Bros. had the misfortune to lose a valuable horse last week.

We were pleased to see Mr. and Mrs. Reigan return to our midst a few days ago. Also Mr. and Mrs. Thomas Thompson.

Several new settlers are arriving. Among them are Messrs. Reid, Kirk, Stoenen, Night and Eusey.

—Ponoka Herald: An old familiar landmark, the first building in Ponoka, was removed from its old location this week. This building was erected by the Algona in December, 1894, and was for several years used by them as the post office and only store in town. Great advancements have been made in the district since those days and the old building had to be torn down to give place to more commodious and up-to-date structures. The corner on which it was situated is now owned by J. G. Armstrong and Company. We are not advised whether this firm expects to put a building on the old site or not.

LITTLEFAIR.—At his late residence in Strathcona on Thursday, April 7th, Mr. William Littlefair, aged 67 years.

—A Canadian dispatch says: "A rich strike of oil has been made to the south of this town and the surrounding country has gone wild with excitement and many are the wells being bored in the endeavor to discover the extent of the oil fields. The strike of the company has taken a jump during the past few days and is now selling at \$2.50 per share, while it was going begging at ten cents a share some few weeks ago. Something like fifteen barrels of oil had been taken from the well when the upper portion, which had not been piped, caved in and stopped the flow. The oil is a thick, rich, dark brown lubricating fluid, and it is pronounced to be excellent machine oil."

—The British Canadian Review of London, England, begins a splendid article on Edmonton with this paragraph: "Edmonton and surrounding district is today the centre of attraction for settlement and investment in the Canadian Northwest—the present northerly railway terminus of the railway system of Canada, and the objective point of two new trunk railways, one of them being a transcontinental line. The rush of settlement to the Edmonton district, which has been going on with increased volume for the past five years, first attracted the attention of railway investors, and now the actual construction and permanent value to the land. There are, or are arranged for, three great competing railway systems in the Northwest, and Edmonton is the only point between Winnipeg, between the Great Lakes and the Rocky Mountains, at which all three systems meet. The fact that this the most westerly and northerly of the Territories, is thus attracting attention, and has been fixed upon by rival railway companies as a common strategic point, is evidence of natural advantages of one kind or another a thousand times more substantial than any mere statement, however weighty."
